

Nexus Solutions for Autism is looking for a BCBA to join our team to supervise in-home therapy ABA services, provide parent training, and work as a member of an innovative team. We are an agency started and led by a BCBA and seeking to infuse principles of ABA into all we do as we provide services to clients with Autism Spectrum and other disorders.

Our focus is on training all our staff to top of the field standards, providing regular and intensive parent training, and using principles of OBM for efficient and effective practice. We are a quickly growing company with opportunities for advancement and real participation in decision making and long-term planning.

We value creative thinkers, problem solvers, and hard workers with an entrepreneurial spirit. Sound like you? **Then Nexus Solutions for Autism (NSFA) is the place for you!**

Behavior Analysts at NSFA will work under the supervision of a highly experienced BCBA and over a team of Registered Behavior Technicians to:

- Conduct behavioral assessments
- Develop treatment plans for skill acquisition and behavior reduction programs
- Train RBTs on behavioral programs
- Provide training to parents on behavioral skills
- Monitor the implementation of behavior programming
- Maintain reporting and treatment records
- Participate in staff-wide professional development

Benefits of working at NSFA:

- Team based scheduling allows for flexibility and consistent coverage of cases
- Parent training and improving the quality of life for our families is paramount
- Full practice management – central office does all insurance paperwork and billing for you
- Supported practice – our structure allows for less time doing menial paperwork and more time providing behavioral services to your clients
- Mentorship and apprenticeship model keeps professional development as a high priority for all practitioners
- Cutting edge technology for data collection, treatment plan writing, and goal tracking
- Competitive pay and benefits

Qualified applicants should:

- Be certified by the BACB
- Have knowledge of DTT programming and implementation
- Have experience working in-homes, in schools, and in other community settings
- Have a steady work history
- Be able to demonstrate behavior management skills
- Be highly organized
- Be personable and relatable
- Be skilled in oral and written communication
- Be a team player
- Be open to innovation and a flexible thinker
- Have worked with children on the autism spectrum or those with developmental or intellectual disorders

Interested applications should email info@nsfautism.com with resume and cover letter and a company representative will contact you to schedule an interview.
